

Developing Applications for Cisco Webex and Webex Devices (DEVWBX) v1.0

What you'll learn in this course

The **Developing Applications for Cisco Webex and Webex Devices (DEVWBX)** v1.0 course prepares you to use the programmability features of Webex[®], Cisco[®] enterprise solution for video conferencing, online meetings, online training, webinars, web conferencing, cloud calling, and collaboration. Through a combination of lessons and hands-on labs, you will learn about Webex Application Programming Interface (API) Foundation, meetings, devices, teams, messaging, embedding Cisco Webex, administration, and compliance. You will learn how to leverage Webex APIs to extend the functionalities of teams, meetings, and devices, and explore how these APIs can help automate, administer, and enforce compliance. This course prepares you for the **300-920 Developing Applications for Cisco Webex and Webex Devices (DEVWBX)** exam.

Course duration

- Instructor-led training: 5 days in the classroom with video demos
- Virtual instructor-led training: 5 days of web-based classes with video demos
- E-learning: Equivalent to 5 days of classroom instruction

How you'll benefit

This course will help you:

- Learn how to use the integrated communication features of the Webex platform for secure virtual meetings, data sharing, videoconferencing, mobility, and team collaboration
- Gain hands-on experience in using agile Webex tools for interactive communication and adding Webex functionalities to existing applications
- Prepare for the **300-920 DEVWBX** exam

What to expect in the exam

The **300-920 DEVWBX** exam certifies your knowledge and skills related to Webex API foundations, Webex meetings, WebEx devices, messaging, embedding Webex, and administration and compliance.

After you pass **300-920 DEVWBX exam**, you earn the **Cisco Certified DevNet Specialist - Webex** certification, and you satisfy the concentration exam requirement for the [Cisco Certified DevNet Professional](#) certification.

Who should enroll

This course is designed for professionals in job roles such as:

- Network engineer
- Communication engineer
- Software engineer

How to enroll

- For instructor-led training, visit the [Cisco Learning Locator](#).
- For private group training, visit [Cisco Private Group Training](#).
- For e-learning, visit the [Cisco Learning Network Store](#).
- For digital library access, visit [Cisco Learning Library](#).
- For other ways to purchase e-learning, contact us at learning-bdm@cisco.com.

Technology areas

- Network automation

Course details

Objectives

After taking this course, you should be able to:

- Describe and use Webex APIs, authentication, and documentation
- Manage meetings using the Webex Meetings Representational State Transfer (REST) API and Extensible Markup Language (XML) API
- Manage and extend Cisco Collaboration Devices with Experience API (xAPI), macros, and user interface customizations
- Program with WebEx teams REST API, cards, webhooks, and bots
- Embed Webex collaboration features into web and mobile applications using the Webex teams JavaScript SDK, widgets, and mobile Software Development Kits (SDKs)
- Manage Webex administration and compliance using JavaScript

Prerequisites

Before taking this course, you should have the following knowledge and skills:

- Basic programming knowledge
- JavaScript, Node.js, JavaScript Object Notation (JSON), REST syntax and uses, and Visual Studio Code Integrated Development Environment (IDE) familiarity
- Knowledge of Webex products usage and administration: teams, meetings, and devices

Outline

- Introducing Webex APIs Foundations
 - Webex as an Extensible Platform
- Managing Meetings with the Cisco Webex Meetings XML API
 - Describe the capabilities of Cisco Webex meeting APIs
- Automating and Extending Cisco Collaboration Devices with xAPI
 - Manage and extend Cisco collaboration devices with xAPI, macros, and user interface customizations
- Building Webex Teams Applications
 - Describe the different uses and capabilities for Webex Teams programmability

- Embedding Cisco Webex
 - Embed Webex collaboration features into web and mobile applications using the Webex Teams™ JavaScript SDK, widgets, and Mobile SDKs
- Managing Administration and Compliance with Cisco Webex Teams APIs
 - Construct the JavaScript code to administer a Webex organization including users, licenses and devices
